

## GABA 1<sup>ST</sup> Scientific Workshop

May 28-30, 2008, Tampere, Finland

# ACCOMODATION INFORMATION

The accommodation options that we recommend are these:

- **Omenahotelli** (<http://www.omena.com/frontpage>), Hämeenkatu 28, Tampere. This hotel (B in the map below) is located in the city center. It is at walking distance of the railway station (C in the map) and the bus station (A in the map). Bus number 13 stops in front of the hotel (in the other side of the street and takes you to the workshop venue in about 30 minutes. Bus timetables can be checked online from <http://atlas.tripplanner.fi/tkl/en/>. Omenahotelli offers very low room rates and up to 4 people can be accommodated in each room although I wouldn't recommend more than 2 per room to be comfortable. The rooms are simple but clean and have a microwave, a small fridge and a TV. The hotel is completely "automated" in the sense that there is no reception or sales office in the hotel. You just access your room with the code you get during your online booking (remember to print the reservation e-mail!). We strongly recommend this if you do not mind taking a bus to go to the workshop venue.

A: Bus station  
B : Omenahotelli  
C: Train station.

- **Hotel Hermica** (<http://www.hermica.fi/>), Insinöörinkatu 78, Tampere. This is the only hotel that is located in Hervanta, at 5 minutes walking distance (see map below) of the workshop venue. The hotel is basic and rooms are quite small but the rates should be quite reasonable (about 90 Euros per night). You might be able to negotiate the price if you are a group.

There are several other options in the city center, although quite expensive. You may want to check these:

- **Hotel Victoria**, 140 EUR for a double room, <http://www.hotellivictoria.fi/english/>.
- **Sokos Ilves Hotel**, 170 EUR-220 EUR for a double room, <http://www.sokoshotels.fi/>
- **Scandic Tampere City**, 170 EUR-220 EUR for a double room, <http://www.scandic-hotels.com/tampere>
- **Cumulus Hotel Tampere**, 180 EUR for a double room, <http://www.cumulus.fi/>
